

COVID-19 POLICY

Date : Update September 2020

Éducazoo activities have always followed a strict hygiene protocol to ensure the safety of participants and the one of our animals. For 2020, in order to comply with government policies, the animation's protocol will be adapted.

Sanitary measures

1) Wearing a mask:

* **Private gathering:** All participants HAVE TO wear the mask during the handling period

* **School, Daycare or other Institution:** the wearing of the mask will depend of the policy of your installation.

Our animator will wear a visor and / or mask according to your establishment's policy.

* possibility of purchasing disposable masks at a cost of \$ 1.50 per mask.

2) Our animator will provide supervised handling of the animals and ensure hand disinfection between each handling for all participants.

* disinfectant supplied by Éducazoo.

3) Hand washing: we continue to ask for hand washing before and after the activity.

4) The material (equipment): any disinfection will be done with a disinfectant which is recommended in daycares, food or animal industries in addition to being used in hospitals.

5) Room sharing: If the groups are in the same room, we ask for access to a mop in order to clean the floor between the groups if several groups follow one another.

This protocol was put in place by our team of biologists at the sanctuary.

If you have any questions, our team stays available at any time.
