

EXTRACURRICULAR PROGRAM

ACTIVITY CONTENT HAS BEEN DEVELOPPED BY EDUCAZOO INC. BIOLOGISTS.

Activities are available in french and in english

Mention your preference when booking.

Let our biologists pick the best selection of animals and themes for you!

Number of students per group

Ideal group size is 20, to a maximum of 25 so that all students have an opportunity to meet animals. * The larger the group, the longer each student will have to wait for a turn to meet animals.

Prices

Our prices vary according to the transport, the time that we spend at your installation, the number of animators, etc. Contact us to obtain a personalized scenario and a tender !

Number of visits

Choose how many visits you want !

- 6 visits package
- 10 visits package
- 12 visits package

EDUCAZOO'S ACTIVITIES GUIDE

DISGUISED ANIMALS

**Learn about animals that, through disguise, can pass unnoticed.
Real camouflage champions !**

ENVIRONMENT

This presentation will encourage youth to adopt environmentally responsible behaviour towards the environment. Our animator will plant the seed of ecological consciousness by touching on topics such as pollution, deforestation, climate change, etc.

EVOLUTION

Learn more about the evolution process and various environment pressures that promote the appearance or disappearance of certain organs or limbs. They will meet members of the skink family which are constantly evolving.

ALIMENTATION

Not all mammals eat the same way. Learn about the dental system and feeding patterns of these mammalian representatives !

LOCOMOTION

Boidae representatives will be happy to show you that it is not necessary to have legs to move. Discover different types of snake locomotion and be a witness of it.

SENSORIAL

Learn how strange animals that, at first glance, have neither eyes or ears, can know and perceive their environment with this sensory theme !

TELL ME, WHAT SOUND DO YOU MAKE ?

Croaking ! This is how the amphibians that you will discover during this activity communicate. Try to learn their different noises and find the hidden message behind !

FORT BOYARD

Challenge youngsters in this animation filled with special animals and fun challenges !

WILDLIFE FROM QUEBEC AND CANADA

Discover little-known animals that look like or are part of the same family as our endemic species of Canada.

TRIP AROUND THE WORLD !

Being part of the rodent family brings its share similarities, but what about differences ? Find out how rodents have adapted to their different living environment.

ECOLOGICAL NICHE

Discover the beautiful and diverse family of geckonidea ! In this activity, students will prepare an ideal habitat for each individual.

SEDUCTION

Humans are not the only ones to have particular techniques when it comes to seduction. Discover the means used by turtles in order to seduce their companion !

REPRODUCTION

How does reproduction take place in lizards? Ovoviviparous or oviparous ? Parthenogenesis? Learn more on the different methods of reproduction used by our reptilian friends !
